Your Energy Saving Tips

Reducing heat loss can help keep your home warmer and lower your energy bills!

the BIG WINTER WARM UP

1	Bleed radiators to improve heating efficiency.
2	Keep radiators free from furniture and clothing.
3	Close curtains at night.
4	Open curtains during sunny days.
5	Use draught excluders around doors.
6	Wear layers indoors.
7	Close doors to unused rooms.
8	Use rugs on hard floors.
9	Keep extractor fans clean and working properly.
10	Avoid drying clothes directly on radiators.
11	Set heating timers to match your routine.
12	Use a hot water bottle or blanket before increasing heating.
13	Check boiler pressure regularly.
14	Fix dripping taps promptly.
