Gary Bredin AlFireE

It is sensible to have arrangements in place to ensure the consistency of Fire Risk Assessments in terms of the assessment of risk and mitigations proposed. In this regard Accent peer validate around 20% of reports, which are available within our audit system.

The Scheme

Scheme Name Concept 36

Scheme Address 40 - 44 Silver Hill, Peterborough

Postcode PE7 8FF

Region

Scheme Manager

Scheme Tel. No -

Scheme Inspection Completed Yes

Enforcing Fire Authority Cambridgeshire fire and Rescue service

Other staff in attendance None

Number of on-site Accent staff None

Number of other (non-Accent) staff

Contract Cleaners in common areas

The Building

Accommodation Type

Build Date Jan 1 2007

Number Of Homes 3

Homes breakdown Flat

External wall construction Timber Frame

External wall finish Facing Brick, Paint Render

Roof construction Timber

Roof covering Slate Pitched

PEEPs in place where necessary N/A

Current Evacuation Strategy Stay Put (Delayed) Evacuation

Conversion or purpose-built Purpose Built

Number of storeys

Number of floors on which car parking is provided 0

Is there a habitable basement?

Number of internal Staircases (protected or unprotected?) 1 unprotected

Number of External Staircases 0

External Balcony part of escape route?

Unusual features None

Building Access Conditions for Fire Brigade

Vehicular Access to one or more elevations

Wet Riser(s) present

Sprinkler System present No

Hosereel(s) present No

Automatic Opening Vent(s) present Yes

Electrical Sources of Ignition

Electrical installation within common areas in good condition and no

obvious damage?

Comment

Valid Electrical Installation Condition Reports held on file? (Common

Areas & General Needs Flats)

Comment Last test August 2022

Electrical App/PA Testing - tested within past 12 months?

N/A

Comment

Absence of trailing leads and adapters? Yes

Comment

Evidence that mobility scooters are not being stored/charged in Yes

common areas?

Comment

Is there a purpose built mobility scooter store/charging area?

Yes

Yes

Asset ID: 986 40 - 44 Silver Hill, Peterborough	
Comment	
Does the building have a lightning protection system?	N/A
Comment	
Is the protection system adequately maintained?	N/A
Comment	
Gas installations	
Is there a commercial/domestic gas supply to the scheme?	No
Comment	
Other Sources of Ignition	
Is there a no smoking policy in place, which is enforced and adhered to?	Yes
Comment	
Adequate security against arson?	Yes
Comment	Electronic door entry system in place.
Are refuse/recycling bin areas managed and suitably located?	Yes
Comment	
Are there communal cooking facilities at this scheme?	No
Comment	
Housekeeping	
Are all electrical/intake/service cupboards secure and free from general waste, contractors waste and and residents personal items?	Yes
Comment	
Are unnecessary accumulations of combustible materials or waste avoided?	Yes
Comment	
Are combustible materials and substances separated from ignition sources and stored appropriately?	N/A
Comment	
Furniture/furnishings in good condition, fire retardant/resistant and comply with modern standards and regulations?	N/A
Comment	

Other Significant Fire Hazards

40 - 44 Silver Hill, Peterborough Asset ID: 986

Are all other significant fire hazards adequately controlled?

Yes

Yes

Comment

Means of Escape from Fire

Is it considered that the building is provided with reasonable means of

escape in case of fire?

Comment

Yes Escape routes unobstructed and safe to use?

Comment Note top floor flat storing items in the means of

Exits immediately openable without a key and/or failsafe's function

correctly?

Comment

Reasonable distances of travel where there is a single/alternative

direction of travel?

Comment

Escape routes lead to final exits and open in direction of escape where

necessary?

Comment

escape. Customer partner dealing.

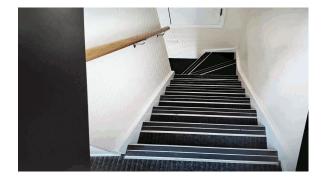

Yes

Yes

Yes

Observation **Priority** Referred To Required By: Task ID

All areas were clear at the time of the audit

Fire Spread and Development

Is it considered that the compartmentation is of a reasonable standard? Yes

Comment

Is there reasonable limitation of surface finishes that might promote fire

spread (walls, floors, ceilings)?

Comment

Are fire dampers/shutters provided in ducts/refuse chutes to protect

means of escape against fire, smoke and combustion products?

Comment

N/A

Yes

Asset ID: 986 40 - 44 Silver Hill, Peterborough As far as can be reasonably ascertained, is the compartmentation within roof spaces of a satisfactory standard? Comment This area was not checked during the audit due to lone working at height Loft hatches fire resisting? Yes Comment Yes As far as can be reasonably ascertained, is the fire stopping above cross corridor fire doors within suspended ceiling void of a satisfactory standard? Comment Yes Do external walls, doors, windows and anything attached to the exterior, limit fire spread? Comment Yes If Smoke Control Systems (AOV's) are fitted, are the records of annual testing available? Comment N/A Are roller shutter doors that are required to be FR, fire resisting and self-closing? Comment **Emergency Escape Lighting** Yes Is the emergency lighting correctly specified and installed as per current standards? Comment Emergency lighting units in good condition and securely fixed to Yes walls/ceilings? Comment Records of monthly/annual testing available? Yes Last drop test September 2024 Comment Fire Safety Signs and Notices Yes Are the correct Fire Action/Advice notices displayed in prominent

locations within the common areas?

Directional fire escape signage in place and adequate?

Comment

Comment

Is there suitable LIFT signage i.e. do not use in case of fire?

Comment

Do common area fire doors display the correct signage on both sides where applicable?

Yes

No

Yes

Asset ID: 986 40 - 44 Silver Hill, Peterborough Comment	
Means of giving Warning in case of Fire	
Is the scheme fitted with a communal area fire alarm? Comment	No
Fire Extinguishing Equipment	
Is fire extinguishing equipment and/or fixed fire fighting installations provided at this scheme? Comment	No
Management of Fire Safety	
Are these premises regulated by the Building Safety Regulator under the Building Safety Act?	No
Comment Are there other Responsible Persons who share or have fire safety duties in respect of the premises?	No
How will this sharing be achieved?	
Is an office or IL scheme being inspected?	No
Comment	
Passenger Lift	
Is the scheme fitted with a passenger lift?	No
Comment	
Premises Inspection Box	
Is there a premises information box for fire & rescue service use?	No
Comment	
Evacuation Policy	
Are there suitable arrangements for summoning the fire service?	Yes
Comment	It's the responsibility of customers to call the emergency services
Taking FRA findings, is the evacuation policy appropriate for the scheme as per latest guidance?	Yes

Comment

Engagement with Residents

Has information of fire procedures been disseminated to residents?

Yes

Comment

Is general fire safety information disseminated to residents?

Yes

Comment

FRA Frequency

Taking the findings of this assessment into account, is the frequency of the FRA correct?

Yes

Comment

Miscellaneous

Are there any other observations/actions to raise that are not covered above.

No

Are there fire related remedial works required at this property, that will affect the fabric of the building?

No

Comment

Were there any unsatisfactory aspects of the Fire Risk Assessment? (Visible on Building Safety Report).

No

Risk Calculator - Fire

The following risk estimator is based on the general health and safety risk level estimator contained within BS 8800: 1996. Guide to occupational health and safety management systems.

systems.					
1. Taking into a	ccount the fire pre	evention measures	 observed at th	ne time of this risk	
assessment, it is building is:	s considered that	the hazard from the	e fire (the prob	bability of ignition) a	at this
LOW	X	MEDIUM		HIGH	
any procedural	arrangements ob	of the building, the served at the time on the event of a fire wo	of the assessm	•	
MINOR		MAJOR	X	CRITICAL	

The definition of the above terms is as follows: FRA Review Frequency

MINOR	Outbreak of fire is unlikely to result in serious injury or death of any occupant (other than the occupant sleeping in a bedroom in which a fire occurs).
MAJOR	An outbreak of fire could result in injury of one or more occupants, but is unlikely to lead to fatalities.
CRITICAL	There is significant potential for serious injury or death of one or more occupants.

3. The above estimates are then read into the following matrix table to give the overall risk level for the site:

Fire Hazard	Minor	Major	Critical
Low	Trival	Tolerable	Moderate
Medium	Tolerable	Moderate	Substantial
High	Moderate	Substantial	Intolerable

When the level of risk is established, the action level can be read from the table below:

Risk Level	Guide to actions and appropriate timescales
Trivial	No action is required
Moderate	Efforts should be made to reduce the risk level and this should be carried out within the specified time periods.
Substantial	Considerable resources may have to be allocated to reduce the risk level. It may be necessary to limit the occupation of some parts until urgent remedial action is taken.
Intolerable	The building (or the relevant area) should not be occupied until the risk is reduced.

The Overall Risk Level for this asset is:	Trivial
